

How to Help at Home

Support at home is **invaluable** to your children's progress and much appreciated.

Please encourage your child to:

- Be correctly dressed for school in full uniform including all black shoes / trainers.
- Be responsible for their own organisation: PE kits (worn on Mondays and Thursdays), homework completed each week (due on a Monday), and reading books and diaries in school **every day**.
- Be on time for school - we open the doors at 8:45am to start our morning sessions.

Homework each week:

- Reading - at least 15 minutes each night . Please encourage your child to read to you at least once a week. We expect a **weekly comment** from an adult at home in the children's diaries. Each child is aware of their Accelerated Reader Personalised quiz target - can you help them to achieve their goal?
- Spellings and Number facts will be given out on Mondays and quizzed the following Monday. You will find these in the back of your child's diary.
- Other homework of Times Table Rock Stars, Accelerated Reader and Reading Plus are all online. If you cannot access this at home, please speak to a member of the Year 4 team!

Items to have in school:

- P.E kits – On Monday and Thursday, please ensure your child has outdoor trainers, jogging bottoms, a white t-shirt and a warm hoody. As we are outside, gloves and a hat are a good idea!
- Reading diaries each day so the Y4 team can add comments after working with your child.
- A named water bottle.

Dates for the Diary

Date	Event	Date	Event
Monday 8 Jan	Return to school	Mon 26 Feb	Back to school
		Thursday 7 Mar	World Book Day
WC 5 Feb	Children's Mental Health Week	WC 11 Mar	British Science Week
Tues 6 Feb	Safer Internet Day	Monday 15 Mar	Comic Relief
Monday 5 Feb	Multiplication Check workshop		
WC 12 Feb	Parent Consultations	Thursday 28 Mar	Break up for Easter
Friday 16 Feb	Break Up for half term	Mon 15 April	Back to school

We regularly use Facebook, text and email to update and remind parents of events.
Please ensure that the office have your current mobile and email address.

Curriculum Overview

SPRING TERM 2023

YEAR 4

Dunston Hill
Community Primary School

Ready

Respect

Kind

Welcome

We would like to wish you all a fantastic New Year and welcome back to Year 4! We are looking forward to the children continuing on their journey in Lower Key Stage 2 and maturing and growing, as they did last term! We would like to thank you for your continued support.

Miss Strike, Mrs McLean and Mrs Donaldson

English Overview

Continuing on the success of our Ready, Steady, Write programme begun last term, we will approach two new texts this term using the same effective sequence of lessons to immerse ourselves, analyse the texts for their features, plan our writing based on the examples we've seen then write independently. The first text we're using is *Arthur and the Golden Rope* which is a myth-based narrative. We've already begun to pull out some super words and phrases that will help us to write our own myth-based story. Later we will use this as a basis for a non-fiction unit where we will write an information text linked to mythical beasts.

After half term, we will be looking at a new text (we're not giving it away yet though!) where we will be writing a 'twisted' narrative followed by a persuasive letter.

We continue to learn from weekly texts in our guided reading sessions, practising our skills of prediction, inference, retrieval, checking for sense and finding the meaning of words in context. Don't forget, you can check which skill we're covering each week on the sticker in your child's reading diary.

Spelling continues weekly, where we review previously learnt spellings, learn the rules for different spelling patterns and apply these in different contexts. We will be looking at: -ous endings for adjectives, 'ch' making the /k/ or /ch/ sound, 'c' making the /s/ sound and -ture endings to words.

Maths Overview

We are continuing to apply the 'Mastery' approach to Maths which strengthens our fluency, reasoning and problem solving skills. This term, our Maths curriculum will include: multiplication and division, fractions and decimals.

First, we will be using our times table knowledge to help us with our written methods for multiplication and division. We will begin the term by looking at our 3-, 6- then 9-times tables and ensuring that we are confident to recall and apply our knowledge of these times tables. We will also look for patterns and links between these times tables to ensure we have strategies for recalling them fluently. Next, we will learn our 7-times table—a new times table but one that we know lots of facts for already due to our other table facts.

Later in the term, we will deepen our understanding of the concept of multiplication and division to know how to multiply and divide by 10 and 100, before moving on to coordinates. Our work on coordinates will see us move objects, including polygons on a grid and draw polygons specified by translations.

To quicken our times table recall, we are using Times Table Rock Stars to practise this whilst making it fun and competitive. We are also reviewing key facts such as identifying square numbers and knowing the relationship between units of measure e.g. 10mm = 1cm.

Science Overview

We continue our Science curriculum by investigating electricity to begin with. We will discover more about mains and battery electricity and where it comes from. We will move on to explore how to make a complete circuit to make a bulb light, a buzzer buzz and a motor turn. Later, we will be looking at the Human body—specifically understanding the basic main parts and functions of the human digestive system and the role of the teeth in this system. We will investigate the best ways to care for our teeth and look forward to doing some wonderfully disgusting experiments to prove it!

Our Curriculum

RE/PHSE: Religious studies will see Y4 continue to explore the religion of Judaism, with particular emphasis on the Seder Meal and special foods. We will then be learning more about Christianity including Easter and the theme of forgiveness. In PSHE, we will be looking at relationships, considering the differences between confidential and private and when it is okay to break a secret. We will learn skills to resolve conflicts and listen to others respectfully, whilst accepting that we can all have different views.

History: The children will be learning about where and when the Roman empire originated, as well as where they invaded and why. We will also be comparing this time in history with other significant events and civilisations. Our focus will be to consider the significance of the Romans.

Art / Music / DT: In Art, we will be working with clay this term to produce 3D animal sculptures. In DT, we will be exploring how we can adapt a recipe to make our own. We are lucky to continue with our Ukulele lessons in the Spring term and will be looking at folk music from around the world as well as reinforcing our understanding of pitch, rhythm, pulse, tempo, dynamics, timbre and texture.

Computing: We will begin the term focusing on Computer Science and using Purple Mash programme '2Code' to improve our confidence coding. Our work on online safety will continue to be a priority, as we consider online reputations and how to manage online information. Later, we will be learning how to create animations with sound effects.

French: In French, we will be increasing our vocabulary knowledge and continue to perfect our pronunciation. We will continue to grow in confidence conjugating the verbs 'to be' and 'to have' in order to say simple sentences, as well as ask questions.

PE: This half term our PE lessons are on Mondays, for hockey then gymnastics, and Thursdays, for sports with Coach Lucas. At the beginning of term, we will continue to develop our hockey skills such as dribbling, tackling, attacking, defending and shooting, in order to apply these skills in a game scenario. We will also maintain our stamina through our daily mile run.

Homework

This term, our homework focus is reading and **times tables**. Each week, the children are to complete 3 sessions of Reading Plus, which is accessed through our website. If required, the site code is **rpduinst**. In addition, in order to prepare the children fully for their Times Table Check in Summer term, **3 sessions of Times Table Rock Stars** is expected per week. The children will also have a reading book to enjoy and quiz on, using Accelerated Reader.
